

In Store Battery Maintenance Program

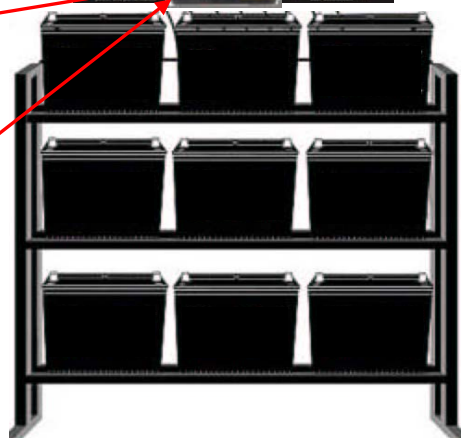

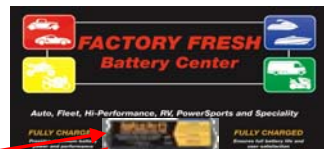

In Store Battery Maintenance Requirements Have Never Been more Important!

- Factory Activated Battery types that need constant maintenance charging!
- More and More SKU's are now needed In-Stock to service your customers needs !
- Customers need to be on the road and expect Factory Fresh replacement batteries – FAST !
- New Sealed AGM Batteries require a special charging rate !
- Your sales associates need to be Selling – NOT babysitting your battery stock !

**The proper products and technology to do all this is
NOW AVAILABLE FROM XTREME CHARGE...**

**Mount 2- X2's on a shop wall to create 4
Battery Charging, Conditioning and
Maintenance Stations**

**Mount 1 - Pulsetech Pro-12
12 station Battery Maintainer on
